## Obituary

### A tribute to Laura Perini

Our esteemed council member Laura Perini, professor of Nuclear and Subnuclear Physics at Università Statale di Milano, has passed away. Laura has been a bright example with her enduring devoted work to support science. Many of us had the pleasure and privilege of working with her closely. We are sad to think of her early passing.

## Spotlight

### Registration for EGI2022 closes soon

We're counting the days to meet you in Prague! Check the programme and book your seat today: registration for EGI2022 closes on September 5th, and we only have a few spots left.

## FitSM training at EGI2022

Sign up today and attend the FitSM training course organised in conjunction

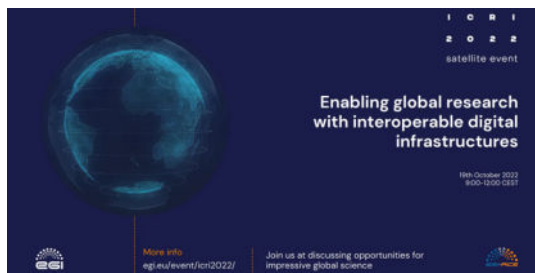

with EGI2022: FitSM is an open, lightweight standard for professionally managing services with a focus on customer needs and in a professional manner. A must-have in your toolbox!

## EGI2022 workshops and training sessions

Discover all the workshops and training sessions organised in the week of EGI2022: find your best fit and book your seat there.

## Events

### EGI co-located event at ICRI2022

Register now for the EGI co-located event at ICRI 2022! The session will illustrate the opportunities for global science and their challenges, and then reflect on them with solutions from Digital Infrastructures and EOSC.

### EOSC Symposium

Pre-registration is open for the EOSC Symposium! Held in conjunction with the Second EOSC Tripartite Event, the symposium will bring together actors from across the EOSC ecosystem to present and share updates.

## Supporting Science

### A successful collaboration with the AI-SPRINT project

Find out more about the collaboration with the AI-SPRINT project to support AI applications development, in particular POPNAS, which is based on Neural Architecture Search.

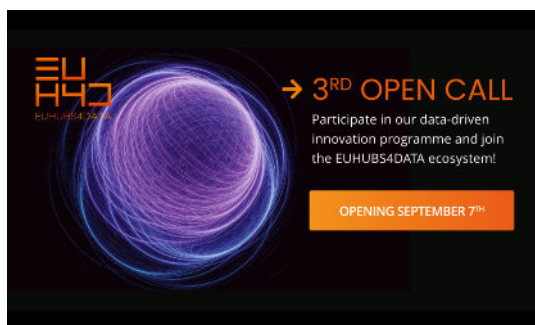

---

## Opportunities

### BD4NRG open call starting in September

The BD4NRG consortium is looking for Big-Data governance and analytics services applications in the energy sector. The call opens in September.

### EUH4D third call for experiments opening soon

EUHubs4Data is launching its third and last open call for experiments. Mark your calendar for September 7 to know more about it.

### RDA Open Opportunities

Until September 15, the Research Data Alliance promotes two open calls for Domain Ambassadors and Cross-Disciplinary adoption. Check out the requirements and apply today.

### Horizon Standardisation Booster call still open

The first call to apply to the Horizon Standardisation Booster supporting the EU Strategy on Standardisation runs until September 30.
