

Good morning!

Check out the latest news from the EGI Federation.

## Spotlight

### #EGI2022 Conference Report

More than 250 delegates gathered for a packed conference labelled "Together for Tomorrow"; a guiding principle to how we built our programme – with a focus on our community, and the ways we collaborate and support each other.

### interTwin kick-off meeting

On September 19th, the interTwin project – coordinated by EGI Foundation – officially kicked off at the #EGI2022 Conference in Prague, Czech Republic.

### iImagine kick-off meeting

iImagine, one of the two brand new projects coordinated by EGI Foundation, kicked off on 23 September 2022 in Prague after #EGI2022.

## Opportunities

### EOSC DIH call for business pilots

The Expression of Interest for Business Pilots in the framework of the EOSC DIH is now running until October 14th. Read more and spread the news!

### EGI-ACE Call for use cases: next cut-off date

The EGI-ACE project offers access to infrastructure and platform services, dedicated user support and training. The next cut-off date is 15 October!

### BD4NRG open call is now running

The BD4NRG consortium is looking for Big-Data governance and analytics services applications in the energy sector. The call runs until 15 December 2022.

### EUH4D third call for experiments now open

EUHubs4Data is launched its third and last open call for experiments to run until 9 November 2022. An info session is planned for 25 October.

---

## Supporting Science

## PANGEO Use case success story

Read about the Pangeo use case supported by EGI-ACE, demonstrating how to deploy and use Pangeo on EOSC and underlining the benefits for the European community.

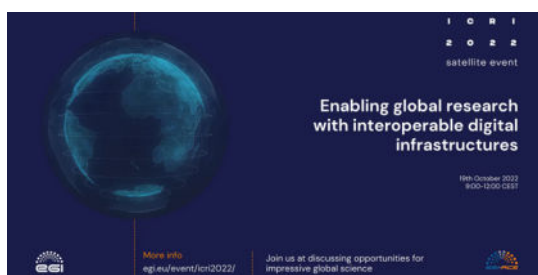

## CLAF celebrates 60 years

In 2022, the Centro Latino-Americano de Física (CLAF) celebrates 60 years since its foundation. Read more about its international collaborations.

---

## Events

## EGI co-located event at ICRI2022

October 19 is approaching! The EGI session at ICRI will illustrate the opportunities for global science and their challenges and then reflect on them with solutions from Digital Infrastructures and EOSC.
