

## Top news from the EGI Community

**EGI Conference 2023** **FORWARD**

**EGI2023**

[www.egi.eu](http://www.egi.eu)  
[#egi2023](https://twitter.com/egi2023)

**19 – 23 June, 2023**  
**Novotel Poznan**  
**Centrum, Poland**

**Save the Date**

The banner features a background of colorful, stylized buildings. The text 'EGI Conference 2023' is in the top left, 'FORWARD' is in the top right, and 'EGI2023' is written in large, colorful letters across the center. Below the letters, there are three columns of text: the website and hashtag on the left, the dates and location in the middle, and 'Save the Date' on the right.

## The call for contributions is now open!

*EGI2023 is approaching fast, and we need your help to complete the programme! From now until March 20th, we're opening a call for contributions.*

At EGI2023, international scientific communities, computing and service providers, European projects, security experts, and policymakers gather to take research and innovation in data-intensive processing and analytics forward. Do you want to be part of this event? Send in your proposal for a lightning talk, a training, a poster or a demonstration now!

Can't wait for EGI2023? Pre-register now and be the first to know when ticket sales start!

## Happy Birthday, EGI!

EGI turned 13th this year! We are grateful we can celebrate the outstanding achievements of our Federation, the entire community behind it, the EGI partners and project collaborators. A very happy birthday to EGI: we look forward to more exciting years ahead.

## Supporting Science

### New experiments supported

Discover the past and new experiments supported by EGI in the framework of the EUHubs4Data and the EGI services involved.

### VIP announces its makeover

The Virtual Imaging Platform has changed its look and feel. Explore it today!

## Reading corner

## Open Science training series and toolkit from TRIPLE project

A new publication from TRIPLE presents a novel approach to FAIRifying research and training practices and creating training resources whose reusability and relevance reach beyond the project lifetime and framework, becoming applicable to other experiences.

---

## Webinars

### Green Deal Data Space Webinar

1 March, 10 AM CET

Introductory webinar to the GREAT project where the speakers will explore why the Green Deal Data Space is so relevant and what the implications are for the users and providers of data.

### Open Science practices in HE

16 March, 9 AM CET

Have any doubts or questions about your obligations as a Horizon Europe (HE) grant holder regarding Open Access to publications and Research Data Management? This is the webinar for you.

---

## Opportunities

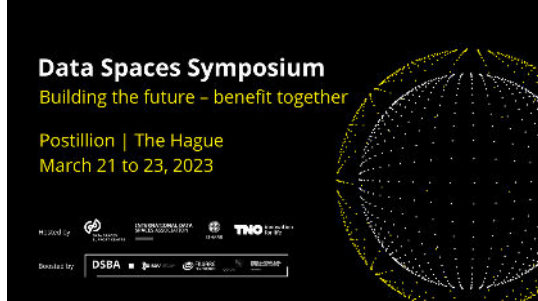

### GREAT project: call for use cases

The GREAT project is looking for Use Cases! Participation is open to Data consumers, Data providers, and Data intermediaries using diverse data to support the implementation of the EU Green Deal in any strategic actions: Biodiversity, Zero Pollution, Climate Change or other GD policies.

---

## Events

## Data Spaces Symposium

21-23/03/2023 in The Hague

Registration is now open for the largest Data Spaces event! You can meet EGI representatives at the EGI booth and learn more about our contribution to different Data space-building projects and initiatives.

## CS3 Conference

06-08/03/2023 in Barcelona

Join the 9th meeting of CS3, a community of providers, developers and users of innovative storage and sync&share systems integrated with research services supporting Open Science and FAIR research.

## Workshop: Integrative modelling with HADDOCK - Introducing the new modular HADDOCK3 version

At ISGC 2023, 20/03/2023 in Taipei

A workshop on HADDOCK, an information-driven flexible docking approach for the modeling of biomolecular complexes.

## EGI Tutorial: Regional infrastructure for reproducible open science in Asia Pacific

At ISGC 2023, 21/03/2023 in Taipei

A tutorial about the features of the cloud-based regional infrastructure to facilitate open and reproducible science in the Asia-Pacific region.
