Top news from the EGI Community

EGI Open Call

EGI launches a new call for use cases!
EGI offers individual researchers, national and international research projects, and communities access to infrastructure and platform services, dedicated user support and training.
The cut-off date is every two months; the next deadline is 15 October 2023.

Apply today

20 years with EGI: interview with Maarten Litmaath

We had a conversation with Maarten Litmaath, co-chair of WLCG Operations Coordination, who provided us with valuable perspectives on the evolution of the Worldwide LHC Computing Grid.

Opportunities

iMagine call for use cases

Mark your calendar for the upcoming deadline of September 30th! This is a valuable opportunity for aquatic scientists interested in harnessing AI-based image processing applications and expanding their usage on extensive cloud infrastructures.

Join the EGI working group on Trusted Research Environment

EGI launches a new working group pioneering Trusted Research Environment (TRE), to foster innovation with integrity. Spread the word and apply by 8 September.

Supporting Science

FloodAdapt, a use case from interTwin

Discover FloodAdapt, an innovative digital twin designed for comprehensive flood impact modelling across every corner of the globe. This solution is made possible through the support of the interTwin project.

EGI and Latitudo 40 forge partnership

EGI has entered into a Service Level Agreement with Latitudo 40, introducing cutting-edge Cloud Compute and Check-in services to the arrangement. This partnership originated from the EUHubs4Data project.

Webinars

EOSC DIH Webinar: Thriving Teams
