

EGI Publishes Its Federation Strategy For 2026-30

The EGI Council approved the EGI Federation Strategy 2026–30 on 27 Nov 2025, and the strategy is now publicly available. Built on 20 years of federating computing resources across Europe, it sets out how EGI will evolve from a computing federation into Europe’s AI-ready compute-data continuum for research and innovation.

EGI to Strengthen Transnational Open Science as a Candidate EOSC Node

"We are honoured to have the EGI application approved as a candidate EOSC Node. This achievement is the result of an intensive coordination effort across our federation.

Diego Scardaci, Technical Solutions Lead at the EGI Foundation and coordinator of the submission.

Opportunities

Become a partner at EGI2026!

Every year, the EGI conference brings together scientists, service providers, technical experts, policy makers, and early-career researchers to discuss their work, join workshops, participate in project meetings, and network with the community.

Contact us now to secure a spot at the exhibition and showcase your offer to

about 300 participants in Ghent!
