

EGI Federation Annual Report 2025 is Online

Following a remarkable year of growth, our 2025 Annual Report details the continued evolution of the EGI Federation. The publication highlights our strengthened role in supporting data-intensive science and our deep alignment with European strategic priorities in Open Science and AI.

Read the full report to discover our key milestones, inspiring user success stories, and a first look at our newly adopted EGI Federation Strategy 2026–2030, outlining our path toward an AI-ready compute-data continuum.

Community Events

Austrian Computational Bioscience Day: Tools, Workflows & Hands-On Training

30 June - 1 July 2026 - Vienna

Jointly organised by EGI and the Austrian NGI, this hands-on course teaches researchers how to run protein docking workflows using HADDOCK within EGI's cloud-based Jupyter environments.

Webinar: Enhanced EOSC Core Capabilities for a Federated Future

30 June 2026

This webinar will unveil the latest advancements in the EOSC Core Capabilities, developed by the EOSC Beyond project to power the next generation of the EOSC Federation.

EBDVF 2026

30 September - 1 October 2026 - Galway

The European Big Data Value Forum (EBDVF) will bring together industry professionals, researchers, and policy-makers to advance Data and AI initiatives through presentations from European research and innovation projects.

EOSC Symposium 2026

14-16 October 2026 - Florence

The EOSC Symposium 2026 will gather stakeholders to showcase the latest EOSC Federation developments. An open call for contributions to shape the official programme is active until June 1.
