A Look Back at EGI2026

Relive the energy, insights, and connections of EGI2026 at De Bijloke in Ghent, Belgium last month!

In just two minutes, take a look back at an extraordinary week featuring high-level plenaries, technical workshops, co-located project meetings, the poster competition, and networking with colleagues from across the scientific computing community.

Huge thanks to all our speakers, conference partners, exhibitors, supporting projects, and delegates for making EGI2026 such a memorable success.

The EGI Node entered production as part of the EOSC Federation

At the beginnig of October, the EGI Node moved into production, making scalable compute, storage, data management and advanced digital research services available through the EOSC Federation and opening new opportunities for cross-border and cross-disciplinary research.

RI-SCALE Call for Innovation Partners

RI-SCALE is looking for Innovation Partners such as intermediaries such as incubators, accelerators, digital innovation hubs (DIHs), and innovation networks, to help connect private-sector companies to RI-SCALE opportunities.

Check the call now

RI-SCALE Open Call for Use Cases

RI-SCALE invites organisations, scientific communities and companies to collaborate with RI-SCALE to push the exploitation of large scientific datasets with Artificial Intelligence.

Project Highlights

RAISE Hub: One gateway to Europe's AI in Science Community

On October 15, 2026, RAISE launched the RAISE Hub to bring together information, initiatives, and communities on AI in science into one shared space.

EOSC Mesh to connect research infrastructures and advance the European Open Science Cloud

The EOSC Mesh project officially kicked off at EGI2026, to strengthen the EOSC Federation by connecting research infrastructures, digital services and scientific communities across Europe.

Learn more

Project Launch: ENSURE Drives Environmental Sustainability Across Research Infrastructures

The initiative unites leading research organizations, high-performance computing centers, and technology partners across Europe to design

actionable, data-driven frameworks for sustainable digital science.

Upcoming Webinars

Shaping AI in Science in Europe, by Scientists and for Scientists

12 November 2026 - 15:30 CET

Join us on 12 November 2026, from 15:30 to 16:30 CET, for the webinar 'Shaping AI in Science in Europe, by Scientists and for Scientists', organised by the SCIANCE project as part of AI Innovation Month.

RI-SCALE Open Call webinar: Bringing new use cases to the RI-SCALE Ecosystem

04 November 2026 - 14:00 CET

Join the RI-Scale Open Call Webinar to discover how new use cases can contribute to and benefit from the RI-Scale ecosystem.

Community Events

AI for Science – Connecting Research, Data and Infrastructure

EUDAT Conference 2026

27 November 2026 - Prague, Czechia

10 November 2026 - Lund, Sweden

AI is rapidly changing how research is designed, conducted and validated. This year's Summit focuses on what that means for major research infrastructures such as ESS, MAX IV and SciLifeLab, and for the HPC, data and AI services that support them.

The EUDAT Conference is the flagship biennial event organised by the EUDAT Collaborative Data Infrastructure (CDI). EGI projects will have a prominent presence during the event.

EMSO-ERIC 10th Anniversary

15-16 December - Rome, Italy

The year 2026 marks the 10th Anniversary of EMSO becoming an ERIC. Today, EMSO is a thriving ecosystem of researchers, engineers, and cutting-edge regional facilities dedicated to understanding our ocean's future.

ICRI 2026

2-4 December - Rome, Italy

ICRI brings together scientists, policymakers, RI directors and operators, funding organisations, and industry to help shape the future of the world's most advanced facilities, services, and data ecosystems.
